

08 - In Class Transpose Happy Birthday

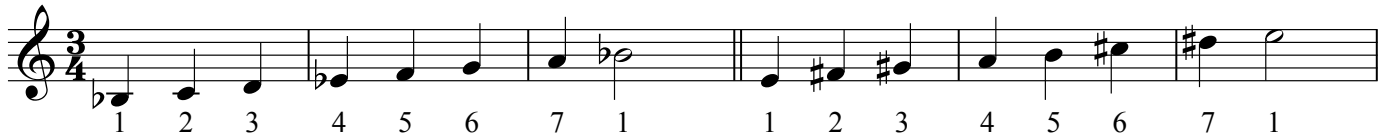

A notes position in the major scale is called a scale degree.

You can identify scale degrees by do, re, mi or by numbers. We'll use numbers.

The same scale degree number applies no matter which octave the note is in.

Bb major scale degrees

E major scale degrees

Happy Birthday in Bb major.

Write the scale degree number under each note of the melody.

Happy Birthday in E Major

Write the notes using the E major scale that are equivalent to the above scale degree numbers.

Remember the sharps. Follow a similar melodic contour.
